

Quality-, environmental- and work environment policy at Interlat

Interlat offers qualified processing of aluminum, assembling and sales of aluminum components. The activities of Interlat also include technical support.

Our target is to appear as a concept synonymous with total quality - from the first contact with the customer until delivery of the product. In all parts of our business we shall fulfill and strive to exceed the expectations of our customers and surroundings and to follow relevant laws and requirements.

We shall work in such a way that we value our environment and prevent pollution of the ground, water and air. The ambitions of the management should be to work with continuous improvements and to make sure that everybody is working in a good and developing environment where the risks for injuries and bad health is minimized. The management of the company shall work with long-term financial and strategic plans.

Interlat shall be perceived as an attractive and competent business partner with high service-esteem by:

- Working in a way that inspires confidence among our customers, suppliers, government and environment.
- Offering a high availability.
- Having an efficient logistics with a high level of service.
- Striving for better utilization of raw materials and resources.
