Quality policy

Interal offers sales, processing and assembly of aluminium components.

Our goal is to be the first choice for our customers, regardless of whether it concerns traditional contract manufacturing based on the customer's specific needs or whether it refers to collaboration and technical support throughout the entire development process, from idea to finished product.

In every aspect of our operations, we will strive to meet the expectations of our customers and other stakeholders, as well as to comply with applicable laws and other requirements.

We are committed to continuously improve our quality management system in order to enhance our working methods, quality, and ability to meet customer requirements.

The management shall lead the continuous improvement process and promote a positive, growth-oriented work environment that leverages the knowledge and experience of our employees. The management shall also focus on long-term financial and strategic planning.

Interal aims to be an attractive, competent, and service-oriented business partner by:

- tailoring production quality to customer requirements, ensuring accuracy and precision at every stage investing in automated and flexible production
- delivering high-quality aluminium products with precision and reliability, within promised timeframes
- developing employee competence through training and other skill-enhancement initiatives
- collaborating closely with suppliers and evaluating them regularly to ensure quality and delivery reliability
- remaining committed and innovative while striving for long-term customer relationships

Our customers, employees, and other partners should view Interal as a dynamic partner for the future.
